

SWIFT / **SWIFT**
DZiRE 1.2

Way of Life!

Swiftly yours

We've taken one of our most popular models and evolved it into two affordable, unpretentious and functional, yet refined vehicles. With a quiet engine and effective cabin insulation, the Swift DZire Sedan and Swift 1.2 Hatch now boast the refinement you expect from a quality small vehicle.

Great features get better

The Swift DZire and Swift 1.2 Hatch's modern design presents an attractive and instantly recognisable car. The interior is pleasantly presented, turning the simple yet elegant and ergonomically designed cabin layout into the perfect place to explore your heart's desires.

Swift 1.2 Hatch

Door pocket with bottle holder

Front cup holder

Spacious luggage area

Swift-style steering

The height-adjustable steering wheel in the Swift DZire and Swift 1.2 Hatch is designed to optimise your comfort. Audio control buttons built into the steering wheel let you control the audio with ease (GL).

Instruments & controls

The meter cluster offers essential information with a liquid crystal display. When the meters are illuminated, light passes through the crystal, creating a sporty, stylish look.

In tune

Four speakers with excellent sound quality complement the Swift DZire and Swift 1.2 Hatch's built-in digital Radio/CD unit (GL) - which is very easy to use. Steering wheel controls are a convenient addition, as are the USB input and illumination control features.

Practically spacious

The generous cabin dimensions seat four in comfort with plenty of legroom, and when it comes to boot space, the Swift DZire and Swift 1.2 Hatch is modest but more flexible than you might imagine.

Keyless entry

For added convenience, the Swift DZire and Swift 1.2 Hatch are equipped with a keyless entry system.

Swift and silent

The Swift DZire and Swift 1.2 Hatch have been designed to provide the quietest drive possible. Sound-absorbing materials and aerodynamically efficient designs, including the side rear view mirrors, ensure superb noise suppression.

SWIFT
DzIRE

As good looking as it is fun to drive

The Swift DZire and Swift 1.2 Hatch are not only designed to be driven but also to be thoroughly enjoyed. High-level features and easy-on-the-eye good looks mean nothing without the driving pleasure and performance to match. Coupled with being one of the most fuel-efficient vehicles in their class, these models are also ultra responsive.

Designed for Comfort

The Swift DZire and Swift 1.2 Hatch prove easy to drive in everyday situations. The steering is light but accurate, while the brakes, gearshift and minor controls require little effort to operate. Ride quality is pleasingly supple around town and stable at speed, exceeding all expectations. The Swift 1.2 petrol engine is ready and willing, also allowing for stress-free highway cruising. Let's go!

ABS (GL models only)

The Anti-lock Braking System (ABS) with brake assist and Engine Drag Control (EDC) prevent skidding and ensure a minimum stopping distance even on the most slippery roads. Adding to driving confidence, sophisticated sensors are installed to constantly monitor speed. If a wheel is ever at risk of locking while braking, the ABS System automatically adjusts brake pressure.

Easy transmission for a smoother drive.

The five speed manual transmission, with assist mechanism reduces driver effort, while the shift lever pattern further promotes a smooth drive. The inhibitor in the Swift 1.2 Hatch and DZire manual transmission derivatives, vaunts a mechanism that guides the shift lever from the fifth-gear position to the fourth-gear position with ease so as to prevent accidental shifts from fifth-gear to reverse. The Swift DZire and Swift 1.2 Hatch comes with optional four-speed automatic transmission, which enables an effortless, smooth driving experience, with straight shift pattern.

Motion theme alloy wheels (GL DZire only)

The alloy wheels boast a new-age pinwheel style that expresses the dynamism and raised ground clearance of the car. The wheel rims are made in a flow-forming process that makes them both light and strong. All models are fitted with specially developed tyres that give superior grip on all surfaces, giving the Swift enough resilience to take on Africa's sometimes-rough roads.

Sporty fog lamps

When the sun goes down, visibility to other motorists shouldn't. The Swift DZire and Swift 1.2 GL Hatch's edgy black-matte finish fog lamps improve visibility and provide a helpful signal to other road users.

COMPLETE

Suzuki understands that purchasing a new vehicle is a substantial investment. Our unwavering commitment to customer satisfaction is represented in our 'Suzuki Complete' package, which includes every aspect of after-sales support, with the warranty, service plan and roadside assistance being standard.

Warranty

All Suzuki models are covered by a comprehensive manufacturer's warranty against any defects for a period of 3 years or 100 000km. This is supported by three year anti-corrosion cover.

Service Plan

The Swift DZire and Swift 1.2 Hatch both benefit from a 2 year / 30 000km service plan. This plan includes the replacement of oil, the oil filter, fuel filter, brake fluid, air filter and accessory belts, but excludes tyres, brakes and other wear-and-tear items.

Roadside Assistance

Every new Swift DZire and Swift 1.2 Hatch comes with a roadside assistance plan. Some of the benefits offered by this comprehensive package include: battery and locksmith call-out services, mechanical and electrical breakdown, towing (accident towing is optional), emergency medical rescue, vehicle repatriation and a stand-by-you armed roadside security response service.

All care is taken to ensure the accuracy of this brochure at the time of print approval. Specifications, features, prices and model availability may vary from those specified and may change without notice. Always consult your authorised Suzuki Dealer or refer to www.SuzukiAuto.co.za for the latest details on all models.
