<b>Disclaimer</b>			
<p><b>Dimensions, capacities and abilities apply to standard vehicles.</b>  <b>Actual consumption will vary with vehicle loading, driving style, climatic and road conditions.</b>  <b>The above information is effective as at April 2019 and is subject to change.</b></p>			

Vehicle Tare mass given at 90% tank filling without driver (75kg). Selected optional extras increase the unloaded weight of the vehicle.

**\*Fuel Consumption and Carbon Dioxide Emission Figures**

The figures reflected were obtained in accordance with prescribed uniform measuring standards (SANS 20101: 2006 / ECE R101: 2005 in their currently applicable versions) under laboratory type conditions. The measuring standards are stipulated by law. They do not apply to a specific vehicle and are provided to enable comparison between different vehicle models tested using the same uniform measuring standard. The values are accordingly not necessarily representative of real-life driving conditions. Factors such as driving style, vehicle load, road conditions, tyre size, traffic and ambient conditions may result in different fuel consumption and carbon dioxide emission levels to those achieved under the test parameters referred to above. More details are contained in the owner's manual.

**\*\* A combination of leather and high quality materials**

This information was effective as at April 2019 and is subject to change without notice.
